PROJECT DESIGN AWARDS CATEGORIES

Architectural Project Awards:

This award celebrates completed new construction that successfully responds to program, site, context, environment, and other factors the jury may determine positions the design as a notable architectural work. Buildings may be of any building type and located anywhere in the world.

- Honor Award: Highest level of achievement in design excellence
- Merit Award: Represents exceptional achievement in design excellence
- Honorable Mention: Represents distinguished achievement in design excellence

Small Architectural Project Award:

This award may be given to any new construction completed for a budget under \$500,000 and represents the highest level of achievement in design excellence.

Preservation / Adaptive Reuse Award:

This award represents a notable renovation, adaptive reuse, and/or preservation of an existing building (historically identified or otherwise). Submissions must involve additions, interventions, restorations, and/or replacements to a building exceeding the design of interiors (see Interior Design Award below).

Interior Design Award:

This award may be given to any interior design which may include innovative uses of building components, materials, and architectural products.

Architectural Detail or Material Use Award:

This award may be given to an innovative or creative use of material, constructional assembly, and/or detail on a completed project of any scope or type.

Unbuilt Design Award:

This award is open to theoretical or unbuilt commissioned projects of any type, size, and scope. Projects may be awarded an Honor, Merit, or Honorable Mention award. This is open to any licensed or unlicensed design professional. Projects produced for academic credit are not eligible.

Emerging Practitioner Award:

An award may be given for both built and unbuilt projects. Students or young professionals licensed less than ten years are eligible. Entries should represent projects that address critical design issues and is open to any project, either built or unbuilt.

2019 AIA KANSAS DESIGN JURY CHAIR

Jason Smith, AIA, LEED AP BD+C

KieranTimberlake, Partner
Philadelphia, PA

Jason Smith is a partner at KieranTimberlake, an award-winning architecture firm recognized for its environmental ethos, research expertise, and innovative design. In over twenty years at KieranTimberlake, Jason has led the design and construction of the firm's pivotal projects and has fostered the firm's research and design culture. Jason works at all scales from private homes to large-scale master plans and has completed projects across North America.

He is currently working on projects in Toronto, San Francisco, and Santa Barbara. He recently completed the Engineering Research Center at Brown University and the San Joaquin Dining Commons at the University of California Santa Barbara.

Jason is a passionate advocate for an ethic and an aesthetic of environmental responsibility in architecture. His projects have been published in Architect, Architectural Record, and Faith and Form, and have been awarded internationally.

2019 AIA KANSAS DESIGN AWARDS JURORS

Rachel S. Schade, AIA

Drexel University
Philadelphia, PA

Rachel Schade, AIA is a full-time Associate Teaching Professor and Associate Director for Student Placement in the B. Arch. program at Drexel University. Continuing to consult on architectural project, Ms. Schade was a founding principal of Schade and Bolender Architects, a woman-owned business with a diverse array of residential, institutional and civic projects. Rachel is the author of the Philadelphia Rowhouse Manual, and remains active in community affairs.

MARK SANDERSON, AIA

DIGSAU
Philadelphia, PA

Mark Sanderson is a Principal and founding partner at DIGSAU. He received a Bachelor of Architecture from the University of Notre Dame and a Master of Architecture from the University of Pennsylvania. Mark's extensive project experience positions him as an in-house expert in architectural technology, project management, and holistic visioning.

A relentless problem solver, he has managed complex projects with intricate phasing requirements by developing creative solutions that convert design constraints into opportunities. Mark has experience contributing technical expertise to prefabrication projects and has utilized innovative materials and transfer technologies to increase the efficiency and quality of construction.

YOUNG ARCHITECT AWARD

Garric G. Baker, AIA

YOUNG ARCHITECT AWARD

The Young Architect Award recognizes architects who, in the early stage of their architectural career, have contributed to design excellence, leadership in practice or education, and/or service to the profession or society. The recipient of the award must be licensed for less than ten years and a member of AIA Kansas.

Garric Baker earned his Master of Architecture from Kansas State University in 2013. He currently is a Project Manager for Bruce McMillian AIA Architects, P.A.

Garric Baker has over six years of professional experience that includes both residential and commercial projects with budgets that range from several hundred thousand to over four million dollars. He provides preliminary design, graphics, construction documents, site observation/construction administration/closeout on the projects.

Mr. Baker has held a variety of local and state AIA positions, served as the President for different local and state organizations, held board affiliations and actively volunteers for an array of community projects. Most recently, he is the President-Elect for AIA Flint Hills, serves on the Manhattan Arts Center Advisory Board and is a member of the Kansas Barn Alliance. Garric has a collection of awards and continues to pursue additional leadership and educational training opportunities to grow as a professional.

HENRY W. SCHIRMER DISTINGUISHED SERVICE AWARD

Timothy G. Cahill, FAIA

HENRY W. SCHIRMER DISTINGUISHED SERVICE AWARD

The Schirmer Service Award is given annually to an individual who has demonstrated distinguished leadership and service on behalf of AIA Kansas and the practice of Architecture over an extended period of time. Such services, exceeding those expected in any official capacity, have advanced the cause of our profession and provided an inspiration to fellow practitioners.

San Francisco 49ers

Wichita Airport

Timothy Cahill earned a Bachelor of Environmental Design Degree and a Bachelor of Architecture from the University of Kansas. Mr. Cahill then earned a Master of Architecture from the University of Illinois. He currently is the Chief Design Officer/Senior Vice President for HNTB Architecture.

As the Chief Design Officer, Tim assumes the role of national director of design for HNTB's architecture practice. He is responsible for developing and implementing national design programs for the practice and works with the architecture group to ensure the quality of design for architectural projects across the firm.

Mr. Cahill's award-winning work is recognized for its creative solutions to complex, aesthetic and economic design challenges. He served as the principal designer on the San Diego Airport Terminal Expansion, the Wichita Airport Terminal, the Toledo Arena and the University of Nebraska Football Stadium Expansion. His expertise ranges from healthcare, professional sports facilities, collegiate sports, corporate and aviation. Kansas Speedway, Chicago Midway Airport terminal and parking garage, the Lake Ozarks Hospital, University of Kansas Memorial Stadium, Kansas City Convention Center, and US Sprint are just a few other projects of Timothy Cahill.

Timothy Cahill's commitment to the profession has been steadfast for over forty years. He has been involved with AIA at the local, state and national levels. Most notably he is an American Institute of Architects College of Fellows member, served on the national AIA board, Central States Regional Director, Kansas City AIA President and a jury member for a few states. While he has officially led AIA in a variety of capacities, Timothy has made it his personal responsibility to annually aid and mentor an AIA member to attain Fellowship status within the Institute. Over the past several years, he has sponsored and supported eight candidates.

THANK YOU TO EVERYONE WHO SUBMITTED ENTRIES!
