

Research shows that when suppliers support the industries they serve, those industries grow and become stronger.

We invite you to join AIA Kansas as an allied member and help support architects and architecture in the region.

Allied membership is open to all interested design professionals, construction industry representatives, building product manufacturers, and service providers to the design and construction industry.

New Partnership Program

Exciting things are underway at AIA Kansas! Our goal is to strengthen the field of architecture in Kansas by developing excellent programs and opportunities for networking among members. To do this, we've developed the Partnership Program and we welcome your participation. This program is open to all allied members.

About AIA Kansas Partnerships

Our Partnership Program provides more opportunities for you to reach architects. This includes EXPLORE events and the EVOLVE Annual Conference that are open for sponsorship, as well as a variety of benefits designed to help your company reach the industry decision makers who buy your products and services. The new program also delivers more education and networking opportunities for architects.

The chart on the back side of this page outlines partnership levels for Gold, Silver and Bronze sponsorships, as well as the benefits for basic allied membership.

WHY YOU SHOULD BECOME AN AIA KANSAS ALLIED MEMBER AND PARTNER

- Access to nearly 700 architects and design professionals in Kansas can significantly increase your business.
- Recent studies indicate that architects specify more than 70 percent of the building products used in construction today.
- Your support allows AIA Kansas and its sections in Topeka, the Flint Hills and Wichita to provide more tours, education (CEUs) and networking opportunities for members.
- AIA Kansas Allied Membership is a great way to promote your products and services year-round and receive discounts on booth registration.
- Allied membership helps build and strengthen communications among all members of the design/construction team.
